

Board of Management: Parents Representatives

Please find below some information regarding our two Parent Representatives who have been elected onto the Board of Management of the College.

Terry Malone BA H. Dip M.Ed.

I am an active member of the Dunshaughlin Community College Parents' Association and I regularly attend the Parents' Association Meetings.

I have served as Parent Representative on the DCC Board of Management for a half term now (2 years). I was elected mid-term to replace a parent rep. position which became vacant.

I live in the heart of Dunshaughlin and I am married and have two children – a son attending Dunshaughlin Community College in Transition Year and a daughter in First Year.

I have been a teacher of English for over 25yrs. I have been Head of the English Department and currently I am the Year Head for Second Years in a Dublin 15 school. I have served a number of times as Teacher Representative on the Board of Management in my own school. I am also a Branch Officer for the Teachers Union of Ireland which serves over 30 Community Schools in the Dublin area.

I am proud to be associated with DCC and I am aware of its very good reputation and the reputation of its staff. It has been a privilege to serve on the Board of Management. I would look forward to continuing my work and involvement with DCC as Parent Representative on the Board. I look forward to your continued support.

My contact details are below.

Thank you

Terry Malone

Barbara Sheehan

I currently has two children in the school, 2nd year and 5th year. My eldest child finished in 2013 having completed her full second level education in Dunshaughlin Community College.

I have been a member of the Parents Association since 2011 and prior to that was committee member on the Parents Association of Gaelscoil Na Rithe and was active for approximately 6 years on the committee.

I have also been Chairperson of the Board of Management for the Parish Centre when it was newly opened and played a key role establishing job specs and dealing with daily issues involved with any newly established entity.

I hope to represent you as the Parents Representative on the Board of Management with enthusiasm and honesty whilst being acutely aware of the spirit of partnership that exists between us as parents and the Management of the school. I am YOUR representative and therefore wish to be very active as the liaison between you and the school management.

I hope to actively solicit parent views and to represent those views at BOM meetings as a vital link between our children and those we entrust their education and well being to and would therefore, ask that you support me in the position by feeling free to contact me with issues that you may feel need the attention of the Board of Management.

I assure you that I will give my full attention, assistance, and indeed you can be assured of complete confidentiality and sensitivity.
